

THE SENTINEL.

TERMS: \$1.50 PER YEAR IN ADVANCE.

DOBYNS & CURRY PUBLISHERS.

FRIDAY, SEPT. 28, 1893.

NEWSPAPER LAW.

1. Subscribers who do not give express notice to the contrary, are considered as wishing to continue their subscription.
2. If subscribers wish their papers discontinued, publishers may continue to send them until all charges are paid.
3. If subscribers neglect or refuse to take their papers from the office or place to which they are sent, publishers will be held responsible. Notice should be given of the removal.
4. If subscribers move to other places without informing the publisher, they are held responsible. Notice should be given of the removal.
5. The courts have decided that refusing to take the paper from the office is prima facie evidence of intentional fraud.

The postage on all subscriptions by mail is prepaid by the publishers.

Letters, communications, notices, or intended for publication, to insure prompt attention, should be addressed to the publishers.

All subscriptions are payable in advance, and may be sent by postal order, draft or registered letter, addressed and made payable to Dobyns & Curry, Publishers, at our risk.

The date following your name, announces the date to which you have paid.

Advertisements are due and payable monthly. Statements will be presented at the end of each month.

Refund for advertising will be forwarded on application.

John W. W. is prepared to do all kinds of job work in first-class style and at reasonable rates, payable on delivery.

All subscribers ordering a change in their postoffice address will please give their former postoffice, as well as the postoffice to which they wish the paper changed. We make this request in order to avoid confusion in mailing the paper.

No attention will be paid to instructions to discontinue the paper, unless all arrears are paid.

DEMOCRATS say they are opposed to

Pendleton's civil service reform bill because it makes no provision for turning out bad men, and all Republicans are bad.

When one Democrat meets another Democrat down in Cincinnati, both have a cunning way of dropping the hand on the pistol pocket. While one walks the curb the other climbs over the barrels and boxes next the fence. It is real policy.

Frank James is still held in the jail at Gallatin under an indictment for killing Westfall at the Winston train robbery, and under another indictment for robbing the train without killing. His recent trial was on an indictment for killing McMillen, the stone mason. He is to be tried on these indictments next month.

The time has come for Senator Pendleton, of Ohio, to give the public his opinion of the treachery through which it was sought to destroy him in his own state. He held his peace when most men would have spoken, and for that he deserves credit; but now that the conspiracy has been exposed he owes to himself to meet his disreputable assailants with those words of truth and soberness and eloquence and force of which he is capable. It might be a contest between a giant and a pygmy, it is true, but still there are occasions when giants should speak and strike.

BECAUSE of his courtesies to Southerners in Boston, and notably to the widow of Stonewall Jackson, Governor Butler is accused of bidding for Southern influence and votes in the next National Democratic Convention. But if he is not prepared to go further than Mr. Justice Field, and instead of advocating the mere refunding of \$70,000,000 of the cotton tax, propose the addition of back interest, he will not succeed. What will his country count against Field's refunding plank, and as big an appropriation as the South desires for river improvements thrown in?

WHILE Dakota has no more hope of admission into the Union, without the consent of Congress, than the result of the war showed the seceding states had of going out. The ambitious citizens of that growing Territory might make it uncomfortable for the incoming Democratic Congress, by quoting a plank of the platform of the Breckinridge Convention of '60, in which it was declared "that when the settlers of a territory, having adequate population to form a state constitution, in pursuance of law, the right of sovereignty commences, and, being consummated by admission into the Union, they stand on an equal footing with other states; and the state thus organized ought to be admitted into the Federal Union."

This doctrine was promulgated in the interests of slavery, and it true in 1860 it ought to be true in 1893. But things have changed, and it is not so much to the interests of the Democratic party to have Dakota admitted into the Union in 1893 as it was to have Kansas admitted in 1860, or to the Republicans to have Kansas admitted six months later. This Democratic resolution is so strong a point in their favor that we are surprised the recent convention of admissionists at Grand Forks, Dakota, did not make use of it. But perhaps they will do so in their memorial to Congress. There is no hope for them, however, as long as the proportion of voters is as indicated by their being in the Territory about one hundred and fifty Republican newspapers to seven or eight Democratic ones. Not until after the election in 1894 at any rate. The prospects of Democratic success are too bright to be interfered with by the addition of another Republican state.

A Great Discovery.

That is daily bringing joy to the homes of thousands by saving many of their dear ones from an early grave. Truly is Dr. King's New Discovery for Consumption, Coughs, Colds, Asthma, Bronchitis, Hay Fever, Loss of Voice, Tickling in the Throat, Pain in Side and Chest, or any disease of the Throat and Lungs, a positive cure Guaranteed. Trial Bottle free at T. S. Hinde's Drug Store. Large size \$1.00.

RANK HUMBOLDT.

The current Democratic rally cries are nothing if not the last expression of humbug. "The Republican party must go" is a demand, by implication, that the Democratic party must come. "Turn the rascals out" is, in its full significance, a bid for office, based on the theory that, in the last analysis, a Republican is dishonest and a Democrat honest. In other words, the Democratic party is now hard at work, consciously or unconsciously, endeavoring to out-Pharisee the Pharisee who stood up in the temple and with a unctuous self-complacency thanked God that he was not as other men are.

What is the record of the party that loudly calls for the retirement of the Republican party, that styles Republicans "rascals"? It is just what such a display of Phariseism would lead one to expect. It possesses a notoriously bad character. It has been out of power for a quarter of a century for cause. It has richly earned the large measure of public distrust that it has so long experienced. It helped to make the Civil War possibly the aid and comfort which it steadily afforded slavery.

The South would never have taken up arms had it not believed that in a pinch it could rely upon the Democracy of the North. It was the right arm of rebellion—it furnished the copperheads.

It was wrong upon all the great issues growing out of the war—such issues as emancipation, the Greenback, the "failure" of the Union cause, reconstruction and resumption. Does it lie in the mouth of a party whose reputation is thus unsavory to set itself up as a censor of public morals, to call other folks rascals, and plainly insinuate that its own members are distinguished for their purity and their ardent love for reform? It may be answered that the heinous Democratic sins to which we have referred, being committed long ago, have no pertinence in any discussion of the current status of Democracy.

This consideration has weight if it can be shown that Democracy has brought forth fruit meet for repentance. But is precisely what cannot be shown. Look abroad over the country to-day. The Ohio Democracy is relying for success in the present campaign upon run.

The same is true of the Iowa Democracy, which still further reveals the disreputable nature of the influences that shape its policy by a vulgar dicker with the Greenbackers. The Massachusetts Democracy demonstrates its lack of moral fiber, as well as the sharpness and depth of its appetite for spoils, by debasing itself to the leadership of so notorious a demagogue as Butler. The Pennsylvania Democracy, in brazen defiance of the public sentiment of the state, makes itself a public nuisance by holding a legislature together which months ago had outlived its usefulness. The Democracy of New York are responsible for a legislature that refused to do anything for the relief of farmers and others who are called upon to pay more than their share of the taxes, is now in sore distress lest the man who has been repeatedly stigmatized in the leading party organs as a traitor, a renegade and a political scoundrel shall decline to make a common cause with it during the coming campaign.

When they come to choose a President next year, the American people are not going to ask which party is immaculate, for they know that neither one is that nor approximates to that. They are simply going to inquire which has the greater claim upon the general confidence; which has the better general average; which has been the more patriotic, the more useful; which if the future of each is to repeat the past of each, will be more likely to promote the public peace and prosperity. The application of such common-sense tests will be fatal to the forlorn hopes of the Democracy. If success was conditioned solely upon energetic vituperation of one's opponents, the victory would doubtless be with that party. But the competitive examination—as it has done ever since 1860—will run Democracy's prospects.

Bucklin's Arnica Salve

The greatest medical wonder of the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancers, Piles, Hemorrhoids, Corns, Chapped Hands, and all skin eruptions guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale at T. S. Hinde's drug store.

The Height of Folly.

To wait until you are in bed with disease you may not get over for months, is the height of folly when you might be easily cured during the early symptoms by Parker's Ginger Tonic. We have known sickly families made the healthiest, by a timely use of this pure medicine.

Highly E. teemed.

The youthful color and a rich lustre are restored to faded or gray hair by the use of Parker's Hair Balsam, a hair-dressing highly esteemed for its perfume and purity.

Heart affections, kidney and liver troubles affect nearly one-half of all mankind. Yet how many heartlessly pass through a shortened life giving no care to these complaints which cause the human family such great distress. Does your heart beat violently from the least excitement? Have you fits of dizziness? Does your back ache? Are your bowels constipated? These symptoms are the first warnings. Delay is dangerous. Be wise in time. Regain perfect health by using Brown's Iron Bitters.

Ben. W. Fleming & Bro. are the leading

Matters. Terms Cash. Prices the lowest. 407 Felix Street, St. Joseph, Missouri.

THE following extract is taken from the instructions of the State Board of Health to physicians:

Under the act entitled "Practice of Medicine and Surgery," all persons offering to practice medicine in any of its departments, in the state of Missouri, are divided into two classes:

First. Practitioners who have been practicing medicine five years or more, within this state, prior to July 24, 1883.

Second. Those who have been practicing medicine less than five years, within this state, prior to said date.

This second class is also divisible into two grades:

First. Graduates of medicine who can furnish satisfactory proof of having received diplomas from legally chartered medical institutions in good standing.

Second. Those who are practicing medicine in any of the departments, who have neither a diploma or license. The former must present their diploma to the state board of health for verification as to its genuineness. The latter must undergo examination by the board for their certificate entitling them to practice medicine and surgery in this state.

Concerning the proviso by which physicians who "have been practicing medicine five years in this state" are exempted from the provisions of the act, the board are of opinion that it is its duty to ascertain, as far as practicable, the names of all those who are entitled to the benefit of that provision; and that it is the duty of those who have thus practiced medicine for five years within the state to furnish the board evidence of the fact by affidavit or otherwise, when a proper certificate will be issued, which will show their right to practice under that proviso of the law, and establish their status legally.

THE Massachusetts Greenback State Committee has reorganized, with P. P. Fields, of Boston, as chairman.

THE Georgia branch of the Republican party is increasing and multiplying. So says Governor Longstreet.

THE Atlanta Constitution places the average savings of Georgia "from the hard earnings of her people" for ten years between 1870 and 1889 as less than \$5,000,000 per annum. The Georgia Legislature is considering a bill creating the office of Lieutenant Governor.

A WASHINGTON dispatch to The Louisville Courier-Journal contains the information that "Smith Weed, who was one of Tilden's managers at Cincinnati, declares that he and others who act with him believe that this cry for the old ticket is worked up for other objects than the nomination of Mr. Tilden in 1892. Since the fraudulent Bigelow interview was published a large number of prominent men from the West and other sections have visited New York and Grey-tone to ascertain the fact for themselves, and they find that the assertion of Mr. Watterson that Mr. Tilden is not a candidate, is correct."

THE prevalence of illiteracy in the South, and the lack of common schools is attributed by the Louisville Courier-Journal to the lack of "a proper appreciation of the importance of public education." It is well to know what is the matter. The failure to educate the masses in the South has been attributed to the pecuniary embarrassments of the people, and this has supplied the advocates of a system of popular education by the General Government with their best arguments. It is not money, but lack of appreciation of the importance, "we, we are disposed to let the people sweat in their own stew till they get tired of it."

A Difficult Problem Solved.

The desire for stimulants is becoming a monstrous evil and how to overcome it is a serious question with reformers. Parker's Ginger Tonic fairly solves the difficult problem. It invigorates body and mind without intoxicating, and has brought health and happiness to many desolate homes.

Mr. James H. Johnson, druggist, at New London, Mo., says: "Brown's Iron Bitters has given good satisfaction to all who have used it."

BY W. S. MAHAN.

urday evening, and called for sinners to come forward; several came, among them a lad of 16 or 17 years. Three men came forward to drag the youth from the altar. The presiding elder stepping forward, said, "Are either of you these boys' father or guardian?" "We are not," was the reply, "but we do not believe in the bible or religion, and think this is all nonsense." The elder replied: "I have a proposition to make to you; stand where you are; permit these praying men and women to gather around you, and let them
